

Well i have been super duper busy with school work school work..heres the update, i put one of the platinum pearlscale pair on aqua bid thinking i would just make like \$50 and make my money back no problem..well the auction needs in 3 days i think well the pair is at like \$160 wow cant believe it..its pretty cool and that pair also spawned for me..pretty cool, i started making youtube videos cause i figured i would try it and so far im getting better i think, i plan on making it to the swap dont really have anything to sell but i could buy =)..i think i might video tape it and put it on my utube channel..not sure yet any thought ideas on that would be great..i will keep people posted if i dont blog i might just make videos and upload them it seems easier heres the utube videos if anyone is intersted..im still learning

<http://www.youtube.com/watch?v=ZfZZczhE79c>

just click on my youtube thing and i have more videos..hope you guys enjoy if anyone wants a video made on something let me know or if you have any thoughts on making the videos better, i know i say um and sound nervous still getting the hang of things.
